FROM: Frank J. Filas, Reclamation Engineer 

RE: Site Inspection, DOE/019/015 and DOE/019/019

In 1981, Greg Nash and Jim Martin filed separate DOE's to placer mine the same sand bar on the Colorado River. Mr. Nash had Bureau of Land Management claims on the sand bar, while Mr. Martin had the state leases.

An April 27, 1987 site inspection by Frank Filas and Frank Jensen found no trace of any surface disturbance in this area of the river.
